LIVE
EARN 1 CEU

You're invited to join our upcoming webinar, where three leading medical experts will present and review three compelling case studies. Each presenter will offer insights into the major features of the patients' medical histories, the decision-making process that led to selecting the appropriate therapy, and the practical considerations of introducing iGlarLixi in both specific cases and broader clinical settings.

The discussion will also cover key aspects of clinical interest when introducing iGlarLixi, including therapy acceptability, potential adverse effects, and other relevant issues based on the presenters' extensive experience.

Don't miss this opportunity to deepen your understanding of iGlarLixi therapy and engage with experts in the field.
