This virtual event (referred to as the “event”) is for Healthcare Professionals only. The views and/or information provided during the event is for medical purposes only and is not intended to constitute legal and/or medical advice. The views and information provided is independent of the event organisers and the sponsors.

By registering, you agree to be contacted by eduXeed and deNovo Medica, the event organiser and service provider, at any time (prior to, during and after the event) on matters relating to the event, including promotion of any part of the event.

Join us for a concise lunch-time session exploring the vaping habits of South African school-going children. This episode will help clinicians better understand young patients’ attitudes toward vaping and the serious health risks involved.

Learning Objectives:

- Gain insight into youth attitudes toward vaping for more informed patient discussions.
- Understand the short- and long-term health effects of vaping.

HOST

DR RUST THERON
Specialist Physician
Durbanville Mediclinic
Cape Town

GUEST

PROF RICHARD VAN ZYL-SMIT
Pulmonologist
Groote Schuur Hospital
Researcher UCT Lung Institute
